

LICENSING ANNOUNCEMENTS

MARCH 7, 2008

No-Stat Table Increase

Primary Audience: DPV™ and DSF²™ Licensees

What: The No-Stat table (dph.hsx) in the DPV and DSF² Product will double in file size to 67 megabytes. Also for the DSF² full version only, the no-stat table will move from CD2 to CD1.

When: Effective with the April release.

Impact: Licensees' systems must be capable of loading the DPV and DSF² Product with the new file size of the no-stat table. Also if Licensees are performing file comparisons, they must be aware of the file size increase.

What you need to do: Update normal practices for loading DPV and DSF² Products with the increased file size of the no-stat table.

Reminders

- If you have personnel changes, please forward an updated Key Personnel Form to ncsc.dpv@usps.gov or fax it to 901-681-4579.
- For any changes made to licenses and supporting documents, check the Modifications document under the appropriate product name.
